

## Special Issue: Modelling and Simulation of Social- Behavioural Phenomena

### Motivation

The growing challenges of societal sustainability, social complexity, behavioral operations research and cohesion are becoming more and more acknowledged in the OR community. Application of computational models and OR to study issues in social sciences has been undergoing rapid development lately.

### Content

In the above-mentioned context, this Feature Issue aims to present a thorough multidisciplinary research for making important contributions, starting from concepts and models, and ending with recommendation and OR systems capable of contributing to the effective global and Europe-wide cultural and social policy formation agendas. The papers need not be bounded by the topics provided, but they should make clear implications for understanding and improving the social processes by OR applications.

### Guest Editors:

Ulrike Leopold-Wildburger, University of  
Graz, Austria  
Leonidas Sakalauskas, Vilnius University,  
Lithuania  
Gerhard-Wilhelm Weber, Poznan University,  
Poland

### Schedule:

- September 18-20, 2019 – Conference
- November 10, 2019 – Full Paper Submission
- January 5, 2020 – Final Decision Notification
- Mid-2020 – On-line Publication of the Feature Issue

Prospective authors may send their full papers (up to 25 A4 pages) via EasyChair.
